Offer to host the co-located GEO Committee Meeting September 2011

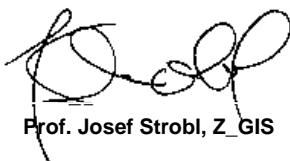

Dear colleagues,

As a new member of GEO, Austria is pleased to invite the GEO Committees for their co-located meeting to the City of Salzburg in Austria. After consultations during the last Committee Meetings in Sao Paulo and Geneva, we can offer a suitable venue during the period between September 12 and 14 2011. The event is planned to be held in at the premises of the University Mozarteum, the famous music academy of Salzburg, located in the city center. For the first 2 days, 4 separate meeting rooms are available for the Committees connected via an open terrace to facilitate exchange during coffee and lunch breaks. A main auditorium will host the plenary on the third day.

The organization will be carried out jointly by the Center for Geoinformatics Salzburg University (Z_GIS) and the GEO Secretariat Austria. The meeting is supported by the Paris-Lodron-University of Salzburg, the Central Institute for Meteorology and Geodynamics (ZAMG), and iSPACE of the Research Studios Austria Forschungsgesellschaft mbH.

We trust that this offer meets the requirements for a successful meeting.

With best regards

Prof. Josef Strobl, Z_GIS

Dr. Ernest Rudel, ZAMG
GEO Principal Alternate, AT

Dr. Gerhard Wotawa, ZAMG
GEO Coordinator, AT
