

IAF Virtual Forum @ Global Space Applications Conference Paris, 3rd June, 14:00

Join a virtual forum with
the global Earth observation community

Title of the Panel: Solutions for Barriers to Access to Application Services: Earth Observation Capacity Building
Date: Tuesday June 3rd
Time: 14:00 – 15:30 (Paris time) - UNESCO, Room 4

Young professionals who cannot travel can participate in this conference by listening to the panel and asking questions remotely. We want to open these rich discussions to the next generation of space leaders. These virtual events bring insight and knowledge to a broad community.

If you are at the conference, please come and join in too.

The web-conferencing tool GoToWebinar will be used to hold the virtual event.

To register, please go here:

If you have any questions about the virtual forum, please feel to contact Kat Coderre (kathleen.m.coderre@lmco.com)
or Guillaume Girard (guillaume.girard@insyen.com)

INTERNATIONAL ASTRONAUTICAL FEDERATION

The IAF GLAC (Global Applications Conference) in Paris will be hosting a Virtual Forum on June 3rd with the global Earth observation community to broadcast a high-level discussion on access to Earth observations data, especially for the developing world.

The session is chaired by **Mario Hernandez** and moderated by **Brent Smith**.

The panellists include:

- **Dr. Barbara Ryan**
Director GEO Secretariat

- **Mr. Mark Noort**
EOPOWER (Earth Observation for Economic Empowerment)

- **Dr. Yasushi Horikawa**
President, Committee on Peaceful Uses of Outer Space, and former Executive Director, Space Applications Mission Directorate, JAXA

- **Dr. Ray Williamson**
Former President of Secure World Foundation

- **Dr. Sandile Malinga**
Chief Executive Officer of the South African National Space Agency (SANSA)
