

VENUE

CAR COLLEGE

(Collegio Internazionale per la Protezione Civile Cardinale Agostino Riboldi) graces the center of the beautiful ancient college town of Pavia, in walking distance of the town's many attractions, cafés and restaurants

AUDITORIUM

The restored Church of Saints Giacomo and Filippo (1632), designed by Baroque architect Francesco Maria Richini

PaRC

The College is a facility of the Pavia Risk Center, which includes the European Centre for Training and Research in Earthquake Engineering (Eucentre), where the GEM Foundation and the UME School (Understanding and Managing Extremes) are hosted.

GEM - GLOBAL EARTHQUAKE MODEL

GEM is a global collaborative effort with the aim to provide organisations and people with tools and resources for transparent assessment of earthquake risk anywhere in the world. By pooling data, knowledge and people, GEM acts as an international forum for collaboration and exchange, and leverages the knowledge of leading experts for the benefit of society.
