

GEO Data providers workshop 20, 21 April 2017, Florence, Italy

Organisation:

Japan Agency for Marine-Earth Science and Technology (JAMSTEC)
JAMSTEC is a research institute on the ocean and the Earth. It operates research vessels, submersibles, fixed point observatories, etc. and conducts global observation on oceanography, climatology, geophysics and biology.

How do you contribute to the GEO Vision?

JAMSTEC disseminates its observation data according to its data policy free of charge for research and educational purposes through its databases.

Type of organization: governmental- NGO- UN..etc.

Governmental

Type of data:

Water temperature, salinity, dissolved oxygen, nutrients, air temperature, wind direction/speed, bathymetry, gravity, rock sample, sediment samples, biological samples, deep sea videos/images, etc.

Data policy adopted by your organization:

JAMSTEC adopted the “Basic Policies on the Handling of Data and Samples” in 2007.
http://www.jamstec.go.jp/e/database/data_policy.html

Already brokered or not by the GCI,

Now testing

For newcomers:

- **Why you are interested to join GEO- GCI**

Contribution to GEOSS is one of the important mission of JAMSTEC and we expect more users of our data/samples from international research communities.

- **How GEO could benefit your organization**

Presence in GEO will influence the evaluation of JAMSTEC's activities.
